INSTITUTE OF PRESILIENCE®

PROFESSIONAL CERTIFICATION SERIES

The Presilience® Pathway to Risk Leadership, Intelligence & High Performance

Three globally recognised, exam-assessed certifications that move risk professionals beyond compliance and into **presilience** – the capability to anticipate, adapt and perform under uncertainty. Each program runs over **four days** and has been developed by world-leading faculty including **Dr Gavriel Schneider** and **Dr Paul Johnston**, grounded in **ISO 31000:2018** and the **Global Risk Culture Standard (GRCS)**, and concludes with a verifiable digital credential. Take one certification, or build the full pathway.

WHY THESE CERTIFICATIONS

- Outcome-based, practitioner-led learning
- Internationally portable, ISRM-aligned credentials
- Verifiable digital badges issued via Credly
- A toolbox approach – not a single model

CPRCHP

Certified Professional in Risk Culture & High Performance

Understand, measure and shape the collective beliefs, attitudes and behaviours that drive how organisations engage with risk – and convert culture into sustained high performance.

4-DAY STRUCTURE

- **Day 1** Strategic foundations of risk culture; the psychology of risk & culture
- **Day 2** Psychology of risk; high-performance & risk-culture dimensions
- **Day 3** Risk-culture maturity models & assessment criteria
- **Day 4** Practical assessment, action planning & indicators

CPRIDQ

Certified Professional in Risk Intelligence & Decision Quality

Develop Risk Intelligence (RI) as a living, applied skill – making higher-quality decisions under uncertainty by mastering bias, motivation, objectives and the measurement of risk capability.

4-DAY STRUCTURE

- **Day 1** Foundations of risk intelligence & decision quality
- **Day 2** Personal risk profile, attitude & bias; decision-making under uncertainty
- **Day 3** Integrated RI in practice; measuring & developing RIQ
- **Day 4** Risk intelligence across disruption & events; certification exam

CPRLAS

Certified Professional in Risk Leadership & Adaptive Systems

Lead in complexity. Intentionally influence the decisions, behaviours and culture that determine how risk and uncertainty are engaged with – and used to achieve objectives rather than avoided.

4-DAY STRUCTURE

- **Day 1** Foundations of risk leadership; risk language, ontology & accountability
- **Day 2** Leadership & followership; complex adaptive systems; leadership styles
- **Day 3** Core risk-leadership capabilities; qualitative & quantitative thinking
- **Day 4** Presilience as the integrating framework; certification exam

4
Days per certification, delivered live online or in-house

3
Stackable certifications forming one complete pathway

✓
Exam-assessed, ISO 31000 & GRCS aligned

★
Verifiable digital badge issued on Credly
